

Folding stairs – pneumatic/ hydraulic operation

Safety systems

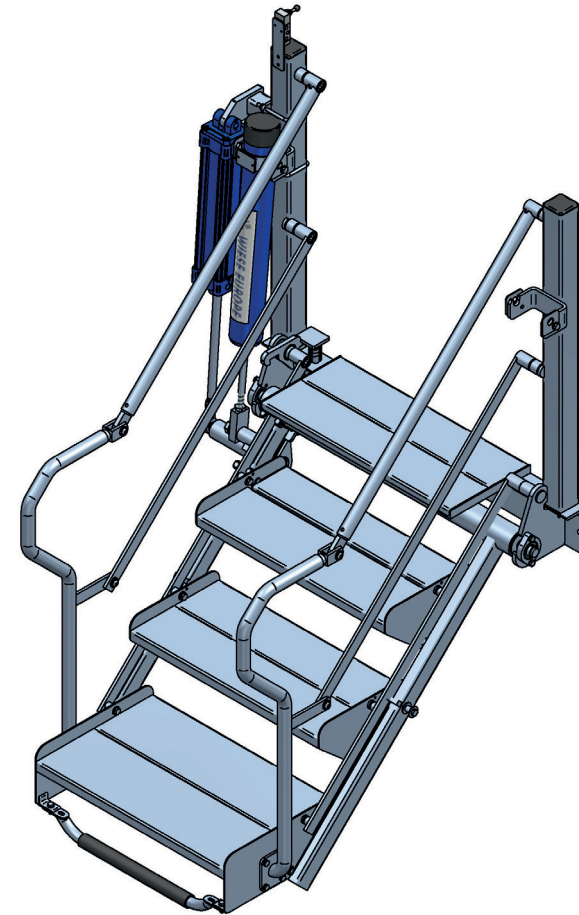

Whether for ergonomic or function purposes, folding stairs can be fitted with pneumatic or hydraulic cylinders to assist/take over the vertical movement.

Pneumatic operation

- Available in Ex design
- Can be equipped with pneumatic brake module
- Pilot operated non-return valves
- Joystick or push button design
- Fully pneumatic or pneumatic-electric design

Hydraulic operation

- Available in Ex design
- Locks the folding stairs when not actuated
- Balancing valves to regulate speed
- Joystick or push button design
- Fully hydraulic or hydro-electric design
