

QCDC (hydraulic)

Marine loading arms

QCDC = Quick Connect-Disconnect Coupler

In order to ensure a safe and reliable connection to the ship, Wiese Europe can, by means of an automated solution, equip its loading arms with a hydraulic emergency release coupler manufactured by MIB in Italy.

As one of the original suppliers of the hydraulic QCDC, MIB has built an extensive experience with the hydraulic QCDC, which can form a perfect synergy with the Wiese Europe marine loading arms.
